To whom it may concern:

I have been asked by Gillian Kornacki to provide her with a letter of recommendation based on her placement with me during the fall placement of 2015. I am happy to do so.

While Ms. Kornacki was with me, she taught two sections of CHC2P Canadian history. She was successful with both classes when she realized that each was a different entity, and needed different classroom management strategies. She showed good growth in this regard.

Ms. Kornacki was able to address the different leaning styles of students by differentiating her lessons to meet their needs. Although she has a good grasp of knowledge, she did not overwhelm the classes with knowledge based lessons, but had a good mix of inquiry based lessons. Since this is the focus of the new history curriculum, she will continue to be successful.

Ms. Kornacki also involved herself in our school's life by involving herself in our Professional Learning Community. Our group runs an after-school physical fitness session on Wednesdays, in which she participated

Ms. Kornacki placement with me was a successful one. I am sure that she will continue to grow in her chosen field.

Please feel free to contact me, if there any questions regarding her placement.
